

# Pro-Industrial Engineering – MECOP

- At least six credit hours of Restricted Electives must have the IE prefix within an Industrial Engineering program.
- At most, one lower division course (with a course number below 300) may be used as a Restricted Elective.
- Specific sequences of courses may be required (See Appendix D of the MIME Undergraduate Advising Guide).
- If a Restricted Elective is used to satisfy a baccalaureate core requirement, it cannot be used as a Restricted Elective.
- Restricted Electives cannot be taken S/U.
