Precision Castparts Corp. (PCC) is a worldwide, diversified manufacturer of complex metal components and products, serving the aerospace, power generation, automotive, medical and general industrial markets. PCC is the market leader in manufacturing large, complex structural investment castings, airfoil castings, and forged components used in jet aircraft engines and industrial gas turbines. PCC is also a leading producer of highly engineered, critical fasteners for aerospace, automotive, and other markets. Numerous career paths are available as we continue to gain market share and expand our proprietary and technical expertise.
