Assistant Professor Positions
Department of Industrial Engineering
J. B. Speed School of Engineering

UNIVERSITY OF LOUISVILLE

The Department of Industrial Engineering of the University of Louisville is seeking candidates for two tenure-track faculty positions at the assistant professor rank. Applications will be accepted from individuals who specialize in additive manufacturing, ergonomics/human factors, or logistics systems; however, exceptionally qualified individuals who specialize in any area of Industrial Engineering may be considered. Responsibilities associated with these positions include teaching undergraduate and graduate courses, supervising the research of graduate students at the masters and doctoral levels, conducting independent scholarly research, publishing in peer reviewed journals, and acquiring external funding to support the research effort. A Ph.D. in Industrial Engineering or a closely related field is required for the position. Although applications will be accepted until the positions are filled, review of applicants will begin in November 2012, since it is very important to have them filled by July 1, 2013.

Please submit an application with a current resume and the names of three professional references to
